

FRX

TECHNOLOGY AND PRECISION THE PERFECT MATCH

The finest, world-class safes, promising ultimate security. Whether you are a watch collector, jewellery lover or rare artifact owner, you will appreciate the painstaking attention to detail and outstanding craftsmanship that goes into constructing these safes.

A solid 12mm thick door, specialised compartments encased in premium leather and reinforced steel are not the only highlights of this luxurious series.

UNLOCK IT WITH A LOOK

FACE RECOGNITION TECHNOLOGY

Facial recognition software is the latest and most sophisticated form of biometric security there is. Using your face as the key, our VR FRX safes are easily able to distinguish one person from another so you can enjoy quick and convenient access without hassle of having to remember a pin or carry around a physical key.

Our VRX locking technology uses a sophisticated algorithm and imaging system to map the geometry of an authorised user's face to create a unique 3D 'faceprint' that cannot be spoofed or replicated.

80 Faces

Protection at your Fingertips

Advanced biometric technology ensures that your safe can only be unlocked by your unique fingerprint, and no one else's.

100 Fingerprints

Custom-Made Square Bolt

Much more advanced than the traditional cylinder bolt, the square bolt's force surface is greater- effectively improving tamper resistance.

Cyclone Bolt Design

Two unique bolts- cyclone, secure the safe, preventing it from all forms of force, strike and pry attacks.

Storm Wind Thread Lock

Reinforced with exclusive, German-patented whirlwind lock, providing near-indestructible resistance against pry attacks.
